FALL/WINTER  
2025

## FOR THE LOVE OF CLIMBING

---

We are climbers. Rafiki was born while we were getting pumped on long rock lines, projecting moves on difficult boulders, walking a wobbly slackline, and enjoying evenings spent sitting by the fire with friends. These are the experiences that inspired our first t-shirts and pants and continue to inspire our entire collection today. We are climbers and nothing will ever change that.

#RAFIKICLIMBING

# GO SUSTAINABLE

REDUCE

RECYCLE

REUSE

RETHINK

When producing apparel and gear for the sport that is so tightly connected to nature as climbing is, sustainability naturally comes to the process. We design and manufacture every single piece to be as durable as possible and in timeless design. The longer it serves each buyer the better for nature. We work hard to find eco friendly materials that can replace plastic and non-natural fabrics while maintaining the same quality and performance. We are not at the finish line yet, but we push further with every collection. To reduce the amount of used plastics, we also reduce the packaging size, and all Rafiki products are packed into recycled plastic bags.

# MATERIAL AND FEATURES LEGEND

**GOTS**  
The strictest certification for textiles made of organic textile fibers.

**RDS**  
Independent, global standard for down feathers that places great emphasis on animal welfare.

**DUCK DOWN**  
All-natural fill comprised of goose or duck plumage. The lofty nature of the plumage allows it to trap air between its filaments, which is then heated by the body's warmth.

**DUPONT SORONA**  
Eco-efficient performance insulation fiber that is 37% plant based, using 30% less energy and emitting 50% less greenhouse gas as compared to the production of insulation fibre from non-renewable resources.

**SORONA AGILE**  
Superior substitute for spandex, it is an eco friendly performance fiber made in part from annually renewable plant-based ingredients (37%). Compared to Nylon 6 it uses 30% less energy and releases 63% fewer greenhouse gas emissions.

**POLAR STRETCH GRID**  
Thin fleece that is lighter and more breathable than ever thanks to the grid construction and the channels between the touch points.

**POLAR STRETCH LOFT**  
Brushed fleece with a high loft that has great thermo-insulating properties and at the same time feels soft and warm against the skin.

**ORGANIC COTTON**  
More sustainable and environmentally friendly alternative to conventional cotton, grown without the use of toxic and persistent pesticides.

**COTTON**  
Natural, soft, breathable, and hypoallergenic fabric that is highly absorbent and durable.

**RECYCLED POLYESTER**  
Also known as rPET, is obtained by melting down existing plastic and re-spinning it into new polyester fiber.

**RECYCLED POLYAMIDE**  
Material that has been recycled from waste. The raw material source for recycled polyamide can be old fishing nets and carpets, and also waste from manufacturing industry.

**POLYESTER/COTTON**  
Polyester/cotton, also know as TC fabric, is a blend that brings together two difference fibers - polyester and cotton - in a way that balances their qualities.

**MODAL**  
Fibres made from beech pulp that are certified as biodegradable and compostable and at the same time feel soft against the skin.

**CLIMBING DENIM**  
Crafted with durability in mind, it combines the classic look of denim with performance features like surpsisingly big stretch and reinforced stitching.

**WATER REPELENT**  
DWR treated fabric resists water, causing it to bead and roll off.It keeps you dry without sacrificing breathability.

**WIND RESISTANT**  
Wind-resistant fabric blocks cold gusts, keeping you warm and comfortable in blustery conditions.

**STRETCHY**  
Models that provide an especially flexible and comfortable fit, allowing freedom of movement without compromising durability.

**QUICK DRY**  
Quick-dry garments that swiftly wick away moisture, keeping you dry and comfortable during all activities.

**LIGHTWEIGHT**  
Models that are made from light materials and therefore great for active movement.

**RAFIKI** WOMEN

MARGALEF, SPAIN

No matter what the season is, a down jacket is almost always useful. Our new all-season women's down jacket will become your constant companion and won't let you down even when others want to stay by the fireplace. The certified duck down fill and recycled polyamide outer material with a PFC-free DWR treatment are the perfect protection on a brisk autumn or cool summer night. Plus, the jacket packs down into a compression sack, so it's great as a pillow, too. Two main zippered pockets and a chest pocket provide enough of space for your essentials. A hemmed hood for extra protection from the weather, a reversible YKK main zipper and stretch knit cuffs only add to the versatility of this down jacket. The Project Mhas other obvious Rafiki features like a climbing grades chart or internal pockets for climbing shoes.

LEONIDIO, GREECE

Our DARCY women's thermal jacket is based on a model that has been proven over the years. It stands out with several features that you will undoubtedly appreciate as a climber. The two-way YKK zipper makes the jacket ideal for use when you don't want to freeze on belay. The jacket's outer material is windproof and also has a waterproof finish. The insulation used, in the form of DuPont's Sorona has great thermal properties and leaves minimal ecological footprint. The combination of down and man-made fiber ensures a much lower weight and makes the jacket packable and portable. We placed the feathers on the inside to keep you nice and warm and used synthetics on the outside, which has the effect of better performance in rain and wet environments. For greater freedom of movement of the hands, we have placed stretch wedges in the armpits. The Darcy has two side pockets and one chest pocket, with mesh pockets inside to fit your climbing shoes. And finally, our time-tested classic: a climbing difficulty conversion chart, so you don't have to count on your fingers like in prehistoric times.

# DARCY

## WOMEN'S LIGHTWEIGHT HYBRID-INSULATED JACKET

ALL YEAR

LOUČOVICE, CZECH REPUBLIC

Getting properly dressed for autumn and winter climbing from the waist up is usually not a problem, but every climber who has ever belayed her partner in winter knows that keeping her legs warm is not easy. And here comes the Autana insulated skirt. At Rafiki, we have put our heads together and made a climbing skirt that features Du Pont Sorona, an eco-friendly insulation made of corn fiber. It insulates well, dries quickly and is friendly to the environment. This skirt has a wide and elastic powerstretch waist band. This makes it really comfortable during any kind of active movement. The front zip is two-way, so belaying is not a problem. The Autana is made of a lightweight windproof rip-stop material with a DWR treatment for better water resistance. So have you ever worn a stylish 'corn skirt' when rock climbing or bouldering?

# AUTANA

Combination of style and function are the hallmarks of the new unisex insulated flanel shirt. Crafted from cotton with polyester furry insulation on the inside, this versatile piece ensures warmth without compromising on freedom of movement. Our designers really went all out with this one and combined two successful styles - a furry sweatshirt and a flannel shirt - into one product. The result is a jacket you can't buy anywhere else. Whether you're embarking on a climbing trip or navigating the city streets during autumn, "Karun" guarantees a perfect blend of practicality and style.

MONTSERRAT, SPAIN

Original colour combinations, a sophisticated climbing cut, and smart technical features are hallmarks of the Linya women's sweatshirt. It is made from lightweight, functional Polarstretch Grid with a system of grooves going through the solid part of the material which makes it moisture-wicking and breathable yet warm. It also offers excellent packability. Thanks to the material used, the sweatshirt can be used as a second layer, not only for climbing but also for other outdoor sports. Its two-way YKK zip makes it easy to belay your climbing buddy without the need to put the sweatshirt under your harness. A popular piece, which is a constant in our collection and which is also worn by the Czech national sports climbing team.

Trust us, it's not just sandstone climbers who wear shirts for climbing. This flannel shirt will serve you great as a second layer instead of a sweatshirt. For this purpose, it has two side pockets and, as usually shirts do, two chest pockets with a flap. Small gussets are inserted in the armpit areas for better range of motion and maximum freedom of movement. The sleeve cuffs can be set in two positions.

Do you care about the environment and your style? If the answer is yes, then the women's Chulilla T-shirt will make you happy twice. It won't lie heavy either on your body nor on your conscience. The combination of bio cotton and visionary fabric Lenzing Modal® is light and airy. Lenzing Modal is made from beech pulp in nearby Austria. Due to its natural origin, it is certified as compostable and biodegradable both industrially and at home. The manufacturer guarantees that the material can be completely lost in nature again without any residue. By this, we don't want to encourage you to throw your T-shirt under a rock, but we want to give you a more nature-friendly choice. This t-shirt is pleasant both to touch and to look at. And as a nice bonus, you will definitely stand out among other climbers thanks to its colorful asymmetric parts.

Women's sports tank top Rafiki SUESCA CTN is made from cotton with only a small amount of elastane. That makes the tank top comfortable on the body and also look better. We have prepared it for all women who love active movement and also prefer natural materials. The material used is breathable and overall very lightweight. So it's a great choice for warm days or indoor activities, whether it's climbing and bouldering, yoga, or any other sport you can think of. SUESCA provides maximum support and can be worn without a bra, or you can also simply remove the sewn-in bra cups if needed. The tank top has attractively designed X-shaped straps at the back. Breathable, stretchy, soft, and comfortable, that's SUESCA. See you soon on the wall, in yoga practice, or out on the rocks. Hasta luego!

You'll love these women's climbing jeans overtrousers with an elastic waist. They're great for climbing in cold weather, but you'll also look great in them when going to the climbing gym, at work, or wandering around town. We've gone to great lengths to make sure the denim is perfect. The Cerro jeans also feature distinctive pockets, and the bottom hem of the leg is elastic, making it easy to put the jeans on, even when you're wearing climbing shoes. So, are you ready to climb?

LOUČOVICE, CZECH REPUBLIC

Women's tapered climbing jeans in a classic cut and a more informal look. They look formal, but are incredibly stretchy, so you can easily handle even difficult climbing moves in them. The combination of synthetic fibres and cotton gives the trousers durability and flexibility. The specifically shaped gusset sewn into the crotch and the shaped knees ensure that they won't restrict your movement in any way. If you're looking for comfortable trousers for everyday wear that won't disappoint even when used for sport, look no further, because that's exactly what the Asis jeans will do for you.

BARCELONA, SPAIN

Women's chill-out "jeggings" Evo! These are our brand new stretchy denim leggings, made of thicker material, so they'll keep you warm in the autumn and winter! You can safely try any route or boulder project in the cooler months, but thanks to their snug fit and thigh fit, you don't have to worry about going anywhere in the city either. We do not forget about your comfort, so the full-elastic waistband fits comfortably around your well-shaped body. So what? Bouldering, sport climbing, traditional sandstone or perhaps just a social-cultural event in your home town or village? They just fit everywhere!

The model is 175 cm tall and wears size 36.

TISA, CZECH REPUBLIC

Climbing pants Chain look just like any other street jeans, yet are the perfect partner for rock climbing. The ultra-light denim is stretchy, breathable, and dries up quickly. A wider cuff makes sure the trousers fit well. The inset gusset gives you maximum freedom of movement, which climbers will appreciate. The raised, shaped knees can withstand the rougher treatment on the rock. The lower cuff is elasticated at the back to keep the trousers well above the ankle. However, the elastic is only in the back, so from the front the pants look like normal flared jeans. There's also a fancy toothbrush loop on the side of the thigh. So, are you ready to go?

MANDALA BOULDERHALLE, GERMANY

The Chain Capri women's climbing trousers have a look that blends in and lets you wear them equally well out to the rock walls and boulders or into the city. They're made from ultra-light denim that's flexible, breathable and quick-drying. The wide waist cuff on these trousers makes them a good fit, and their diamond crotch lets you move freely. With their doubled-contoured shaped knees, you can lean onto a rough rock face problem-free. Their leg cuffs are elastic in the back. There's also a fancy toothbrush loop on the side of the thigh. So, are you ready to go?

These cotton climbing trousers are made of a comfortable twill material. They are suitable for outdoor autumn climbing, going to the wall and for work. Elastic cuffs in the waist and legs ensure comfortable fit, maximum freedom of movement and pleasant climbing experience. At first glance, you'll be struck by the distinctive pocket entries. It is simply a pair of trousers perfected to the smallest detail. So where will you take them next? Chulilla, Fontainebleau or maybe Finale?

ANDALUSIA, SPAIN

Women's climbing trousers that are stylish, breathable, and resilient. Their narrowed fit is very comfortable, in part due to the flexible material used. They're made for climbing. Naturally, they include features like a wide and comfortable waist cuff, a diamond crotch, shaped knees and legs with elastic cuffs in the back to hold them fast above the ankle. What more could you wish for out on the rocks? You'll also appreciate the double zig-zag toothbrush loop. And if you're climbing without one, think of the loops as decoration.

MANDALA BOULDERHALLE, GERMANY

It's not just guys who want wide-legged bouldering shorts. NOIA climbing shorts are for all girls who don't want to buy classic men's models anymore but still prefer a wider and longer "boy fit" cut. This Rafiki piece is therefore dedicated to all enthusiastic climbers and sporty women who are looking for comfort, and convenience, but also a modern and clean design. They are made of a ultra-light, quick-drying material that is also incredibly durable. So they're an obvious choice for hot summer days in the crags, for the crowded climbing gym, or poorly ventilated basement room where you're training hard for your dream climbing projects. Climbers from the Czech national sport climbing team have chosen them as their competition shorts and have been wearing them all season to compete for medals at international competitions. You can be sure that if the professionals are happy with them, they won't restrict your climbing movements either.

These women's lightweight sports shorts are designed especially for modern bouldering disciplines where you need maximum freedom of movement. Whether you're jumping a dyno into the next hold, running over a "parkour" fun line, or tuning up technical balancing. Thanks to the stretchy material and wide waistband, you'll have absolute comfort as well. You can definitely pack them in your backpack on your way to warmer climbing destinations when you want to catch some bronze and get a tan while climbing. Plus, they look great and accentuate your graceful feminine curves. Test it out for yourself, give it a try, and if you still don't believe us, just ask a few of your climbing buddies who will surely agree with us, that these shorts fit you great!

**RAFIKI** MEN

MONTSERRAT, SPAIN

No matter what the season is, a down jacket is almost always useful. Our new all-season men's down jacket will become your constant companion and won't let you down even when others want to stay by the fireplace. The certified duck down fill and recycled polyamide outer material with a PFC-free DWR treatment are the perfect protection on a brisk autumn or cool summer night. Plus, the jacket packs down into a compression sack, so it's great as a pillow, too. Two main zippered pockets and a chest pocket provide enough of space for your essentials. A hemmed hood for extra protection from the weather, a reversible YKK main zipper and stretch knit cuffs only add to the versatility of this down jacket. The Project W has other obvious Rafiki features like a climbing grades chart or internal pockets for climbing shoes.

The model is 184 cm tall and wears size M.

Our DANTE men's thermal jacket is based on a model that has been proven over the years. It stands out with a number of features that you will undoubtedly appreciate as a climber. The two-way YKK zipper makes the jacket ideal for use when you don't want to freeze on belay. The jacket's outer material is windproof and also has a water-proof finish. The insulation used, in the form of DuPont's Sorona has great thermal properties and leaves a minimal ecological footprint. The combination of down and man-made fibre ensures a much lower weight and makes the jacket packable and portable. We placed the feathers on the inside to keep you nice and warm and used synthetics on the outside, which has the effect of better performance in rain and wet environments. For greater freedom of movement of the hands, we have placed stretch wedges in the armpits. The Dante has two side pockets and one chest pocket, with mesh pockets inside to fit your climbing shoes. And finally, our time-tested classic: a climbing difficulty conversion chart, so you don't have to count on your fingers like in prehistoric times.

LOUČOVICE, CZECH REPUBLIC

Combination of style and function are the hallmarks of the new unisex insulated flanel shirt. Crafted from cotton with polyester furry insulation on the inside, this versatile piece ensures warmth without compromising on freedom of movement. Our designers really went all out with this one and combined two successful styles - a furry sweatshirt and a flannel shirt - into one product. The result is a jacket you can't buy anywhere else. Whether you're embarking on a climbing trip or navigating the city streets during autumn, "Karun" guarantees a perfect blend of practicality and style.

MONTSERRAT, SPAIN

Original colour combinations, a sophisticated climbing cut, and smart technical features are hallmarks of the Ascent men's sweatshirt. It is made from lightweight, functional Polarstretch Grid with a system of grooves going through the solid part of the material which makes it moisture-wicking and breathable yet warm. It also offers excellent packability. Thanks to the material used, the sweatshirt can be used as a second layer, not only for climbing but also for other outdoor sports. Its two-way YKK zip makes it easy to belay your climbing buddy without the need to put the sweatshirt under your harness. A popular piece, which is a constant in our collection and which is also worn by the Czech national sports climbing team.

The Rafiki GRANITE men's T-shirt is the lightest, most minimalistic, and thanks to that the cheapest model in the men's collection. With a lower price, however, it does not lose quality - we used 100% organic cotton in its production. The GRANITE T-shirt is breathable and pleasant to the touch, plus it's very comfortable, so you'll love it for casual days and climbing trips as well. Thanks to the sustainable material, you can also feel good that you have put as little burden on nature as possible by buying it. The original color combinations on the sleeves and the distinctive Rafiki logo on the back make it a shirt for anyone who wants to stand out among climbers. Whether you're having a "rest-day" or pushing your vertical limits, the GRANITE will quickly become your first choice. Throw it on and go fight gravity!

MANDALA BOULDERHALLE, GERMANY

Lightweight and breathable mono-chromatic Rafiki ZONE T-shirt is here for all of you. The environmentally sustainable "Lenzing Modal" material is its main advantage. Not only is it incredibly light, breathable, and comfortable on the body, but it is also a material of the future that is as environmentally friendly as possible. Lenzing Modal is made from beech pulp in nearby Austria. Due to its natural origin, it is certified as compostable and biodegradable both industrially and at home. The manufacturer guarantees that the material can be completely lost in nature again without any residue. By this we don't want to encourage you to throw your T-shirt under a rock, but we want to give you a more nature-friendly choice. A piece you'll love for training and also when you go out climbing on the rocks. It's up to you what route you will choose. So choose sustainability in our new ZONE natural t-shirt.

ARCO, ITALY

SLAB LT is a lightweight men's tank top made of 100% organic cotton that will cover your back even on the hottest summer days. The material and cut are designed to give you the least restriction of movement and provide you with perfect flexibility for climbing and all other sports activities. We've brought the SLAB LT back into our collection after repeated requests from our Rafiki ambassadors, and we've made it noticeably better than its previous models. The new material used in the tank top Rafiki SLAB LT is softer and therefore extremely comfortable. The contrasting colour of the chest pocket, the tiny "Rafiki-doll" on the front side near the shoulder, along the large Rafiki climbing print on the back - all of this adds to its attractiveness. If you're looking for climbing gear for your projects on the hottest days, definitely add the Rafiki SLAB LT to your climbing wardrobe selection!

MONTSERRAT, SPAIN

In Torre II men's climbing jeans you will handle any challenge. Whether it's bouldering at the edge your skill, balancing on a miniature crimp, or needing to put your knee under your chin, the Torre II won't let you down. The higher weight makes them the perfect choice for the chilly climbing condition. Rafiki elastic waist ensures a perfect fit, so you will feel nothing under the harness and nothing will distract you from the next step under the quickdraw.

LOUČOVICE, CZECH REPUBLIC

For the new men's jeans Arcon we've chosen a looser, more civilian fit that makes you look like more an ordinary man than a climber. Despite their formal look, they offer incredible flexibility and climbing features like ergonomic shaped knees or inseam gusset. So if you have ants in your pants on your way home from work and hit the climbing gym or crag, these definitely won't be the pants that should limit you. In short, with these you can solve every problem!

Versatile men's climbing jeans Rocca. Besides front and back pockets, you'll find a zippered thigh pocket compatible with a harness. The durable canvas also protects more than just your knees when you're projecting new route. You can use the Rocca for all your climbing activities, but when you decide to go to straight for the diner just after packing your racky you won't have to feel guilty you look like a climbing bum. You can easily chalk off your pants, slip your toothbrush into the pouch and blend in with the crowd.

FRANKENJURA, GERMANY

Don't worry, you're right here in the climbing clothes department. Doesn't look like it, does it? These awesome climbing jeans are indistinguishable from classic street pants. They don't look like it, but they'll serve you well on any climbing adventure and are a favorite piece of our ambassadors. The lightweight denim material makes them durable yet breathable, and quick drying. The inset gusset and double-moulded knees promise unrestricted movement. If it weren't for that, our Ambassador Vojta Trojan probably wouldn't have chosen them for his successful climb of Germany's legendary route Action Directe 9a. The elastic at the waist is hidden inside so as not to spoil the civil look, and we've also added belt loops. A smart pocket for a toothbrush is a must. We've prepared two seamed lines on the bottom cuff of the trousers, where you can cut and therefore shorten the trousers without fear of the fabric fraying.

Whether you're hitting a climbing wall, going to work, or traveling to your next climbing challenge, you'll feel great in these stylish corduroy trousers. We've combined two different materials to make them - soft corduroy and a more durable material for stressed areas. Two large back pockets and two spacious top-entry front pockets make the Ledge trousers incredibly comfortable to wear. With pre-shaped knees and a sewn-in inner gusset at the crotch, they won't restrict any active movement. The waist has belt loops and there is a brush pocket on the side.

LA FOIXARDA BARCELONA, SPAIN

A proper pair of climbing pants, that will hold you up when you're holding up the crimp (or salty-flimsy sandstone jug)! One color combination. Simplicity. Functionality. Comfort. Performance. Nothing more, nothing less! In our view rather more, than less. Shaped knees, reinforced legs, sporty elastic waistband at the back part, comfortable hand pockets where your strong fingers may rest. Our tested combination of denim trousers with stretch twill bonded cotton. And of course, for your absolutely high motivation, there's a "Rafiki" decoration, contrast stitching and to let everyone know you're serious as hell about your climbing: "Rafiki climbing" sign on the back pocket. So just throw them on and go right ahead for your next send!

LOUČOVICE, CZECH REPUBLIC

These stylish cotton climbing trousers with a more informal look will make every climber happy. The cotton material with twill weave and elastane ensures that the trousers will withstand climbing challenge. The trousers are tapered and perfected to the last detail. They have a climbing gusset in the crotch, partially elastic waistband, pre-shaped knees, a brush pocket, belt loops and internal drawstrings. We've tested the Rockland trousers while climbing, but they're still waiting for a bouldering trip to the South African Rocklands, so will you be the first to take them there?

Climbing trousers with a more civilian look that will last. The Rodellar trousers are made from a firm cotton fabric that can withstand rough treatment. This material has increased abrasion resistance, but thanks to added elastane, it does not restrict movement. The trousers have two spacious front and two back pockets. A zip thigh pocket is practical for small items. They also feature a brush loop and drawstrings in the legs. They are just perfect not only for the city, but also for serious climbing and bouldering.

Ultra-light, airy, and comfortable climbing trousers, which fit perfectly around the waist thanks to the elastic waistband. The lightweight material and airy feel make them the perfect choice for hot summer days or climbing indoors when you don't want to wear shorts for whatever reason. You can throw them on when you're aiming for the rocks, and be sure that they will hold you up even on tough bouldering moves. Of course, there's a brush pocket and a chalk bag loop, but you'll also be pleased by the functional leg drawcord that keeps your pants from flopping over the climbs when you're patting in your latest project. In short, stylish pants that have "drive" and you'll love them, both for climbing and everyday wear.

**RAFIKI** ACCESSORIES

Looking for a reliable and rugged crash pad that will protect you from hard falls? If so, look no further, our classic two-piece GRADE crash pad is a must-have for every bouldering enthusiast. Two layers of high-quality foam will take care of cushioning your falls. To be sure that we chose the right hardness of the foam we thoroughly tested it in cooperation with our ambassadors and bouldering hall builders. The crash pad cover is made of durable materials and can withstand even the roughest treatment. The rubber-coated material on the outside is also non-slip and easy to wash if dirty. Comfortable (one-piece) shoulder straps and a simple hip strap allow you to easily carry the crash pad to all your unfinished projects. You can detach both of these straps if needed. There are durable metal buckles and handles for handling on the ground or carrying. A mat for cleaning the climbing shoes can be found in a separate hidden pocket on the top. You can trust the quality - the crash pad is made and filled in Europe and we have paid attention to every little detail. Don't settle for less - upgrade your gear with this Rafiki crash pad.

salsa II  
 10047829RFX

The model is 184 cm tall.

The GRIT climbing backpack with a capacity of 40 litres is ideal for carrying your climbing gear. Its sturdy construction, durable metal buckles and TPU finish give it durability. A full-length YKK zipper down the middle of the back then allows for quick and easy access to everything you stow in it. With this pack, there's no more chaotic rummaging and situations where "the thing" you need is, as bad luck dictates, at the bottom of the pack are a thing of the past. Thanks to the padded and reinforced shoulder straps, chest strap and reinforced hip strap, you can be sure that even when you stuff the pack, it will carry comfortably. Plus, you'll find a handy little pocket on the waist strap, for example for your keys, and a loop for clipping on your climbing shoes. With two side pockets, carabiner loops, drawstring straps for attaching a rope, or elastic side straps for a clip stick, the GRIT is really practical. Two large loops at the top and bottom of the pack allow you to move the open pack under the rock without having to close the pack first. Every climber knows that if you want to taste climbing on hard "grit stone", you will have to visit famous Peak District in Great Britain...well, it's only a matter of time before our GRIT backpack becomes just as famous.

YKK®

blue nights  
10041474RFX

The model is 175 cm tall.

The GRIT climbing backpack with a capacity of 28 litres is ideal for carrying your climbing gear. With a weight of only 890g, it's perfect for shorter climbing missions or for girl climbers who don't want to put too much on their backs. Its sturdy construction, durable metal buckles and TPU finish give it durability. A full-length YKK zipper down the middle of the back then allows for quick and easy access to everything you stow in it. With this pack, there's no more chaotic rummaging and situations where "the thing" you need is, as bad luck dictates, at the bottom of the pack are a thing of the past. With padded and reinforced shoulder straps, a sternum strap, and a simple detachable hip strap, you can be sure that even when you stuff the pack, it will carry comfortably. With two side pockets, carabiner loops, drawstring straps for attaching a rope, or elastic side straps for a clip stick, the GRIT is really practical. Two large loops at the top and bottom of the pack allow you to move the open pack under the rock without having to close the pack first. Every climber knows that if you want to taste climbing on hard "grit stone", you will have to visit famous Peak District in Great Britain...well, it's only a matter of time before our GRIT backpack becomes just as famous.

Multi-purpose durable transport bag that you can carry in your hand thanks to the sturdy handles or on your back thanks to the reinforced straps. The straps are also removable with duralumin buckles or you can hide them in the pocket on the lid of the main compartment. The Rafiki duffel offers 3 more pockets with YKK zipper. On the side with a water-repellent zipper, a mesh one all along the inside of the lid, or on the front pocket where you can simply roll the bag into a small pancake and use it as a pad for sitting on the cold ground, for example. Climbers will also love the daisy chain sewn around the side of the bag.

The model is 184 cm tall.

You don't want your rope rolling in wet sand, dirty mud, or even rain and water under a rock anymore? We know you don't! That's why we have prepared our new Rafiki ROPER for you. A practical and durable rope bag that protects the rope inside from the elements. Inside the rope bag, you will find a PU-coated tarpaulin that will protect your rope from getting wet and dirty from the ground. Of course, there are also colored loops for tying the ends of the rope, so you won't have to dig through its whole length just to find the right end to tie on. The ROPER rope bag also features two compression straps and one adjustable shoulder strap. With a 25-litre capacity, it can comfortably hold up to 80 metres of rope and you can throw in climbing shoes, a chalk bag, or other essentials.

The model is 175 cm tall.

Our new Rafiki SCRUB backpack with a capacity of 26 liters will serve you well for everyday use. Its design was inspired by "big-wall" haulers aka "hogs", featuring a large opening on the top, a full-height vertical daisy chain strap, reinforced hems and edges, and a flat, sturdy bottom for better stability when you put it on the ground. A large side zippered opening gives you easy access to all the stuff in the bottom of the pack too. An internal back pocket protects your laptop or tablet, while a small zippered side pocket is perfect for storing your phone or wallet. Whether you're commuting to work, running errands, or heading to the climbing wall, the SCRUB backpack will be your ideal partner. There are two color designs to choose from, so just pick the one that suits your climbing and adventurous nature.

Introducing Bishop! This is not a scruffy climbing chalk bag, but a proper "boulder bag" with a roll-up velcro closure complete with a metal buckle! Bishop will serve you long and well, even if you don't treat it like a fragile treasure. We've used a pleasant "micro-fleece" for the inside of the bag and on the side, you'll find a handy zippered pocket, which you can also use as a key holder or to stash all your valuables and bouldering essentials like tape, sandpaper, scissors or band-aids if worst comes to worst! You can then tuck up to three different-sized toothbrushes into the outer pockets. So take the Rafiki Bishop to Bishop, California, or just anywhere else for some serious bouldering!

Get a grip with our high-quality magnesium products for climbing! Our magnesium is perfect for drying your skin and improving your grip during your climb. It's suitable for use on climbing walls, rocks, and even for gymnastics and fitness activities. We pride ourselves on offering the highest quality products, tested by the state health institute, and all made in the EU. Our range of products includes crushed magnesium, liquid magnesium, and magnesium balls, so you can choose the format that best suits your needs. Crushed magnesium is perfect for refilling your chalk bag or bucket, while liquid magnesium is ideal for quick and easy application. The magnesium balls are a convenient option for those who want to avoid the mess of powdered magnesium.

**RAFIKI** SHOES

We have added the Rafiki MONTE M sturdy street approach shoes to the collection for climbers who are looking for shoes that will serve them well as approach shoes for shorter and easier climbing missions. We've designed them to combine durability and comfort and equipped them with a sticky rubber outsole that provides a great grip on any surface. The premium suede leather upper will offer good weather resistance, while the protective rubber toe and heel cap will protect your feet on tougher terrain. The lace-to-toe design provides a precision fit and sure feel even on the most unstable terrain. The Monte also includes webbing loops for clipping or stowing the shoes when the trail ends and the climbing begins. Whether you're an experienced climber or just a climbing newbie, they will quickly become your favorite all-purpose shoe. With its premium quality and unbeatable design, the Rafiki MONTE M is sure to be a valuable addition to your shoe rack. So take them with you to the crags under your unfinished project!

Rafiki MASSI M street shoes are designed for all climbers who need comfortable and durable shoes for everyday use. The sticky rubber outsole provides excellent grip, while the premium suede leather upper ensures weather resistance and constant comfort. Low rubber toe protection and the toe shape of the Massi shoes are inspired by climbing shoe construction and allow for precise toe placement if you decide to challenge some of that urban bouldering on your way to work. The specially designed tongue, which is sewn tightly not only at the end but all along one side of the shoe, provides a great degree of comfort and also requires no additional adjustment. The strap loops make it easy to clip on and store the boots, making them a versatile choice for any climber. Whether you're heading to the local climbing wall or just running daily errands, the Rafiki MASSI M definitely won't let you down even in unstable terrain. Their combination of style, durability, and comfort make them the perfect addition to your shoe closet. So don't hesitate to try them out on your own feet!

SMÍCHOFF

HOW TO MEASURE

MEN

**CHEST** / Place the tape measure under the arms and around the fullest part of your chest with arms raised slightly.

**WAIST** / Measure all the way around your body, level with your belly button. Make sure it's not too tight and that it's straight, even at the back. Don't hold your breath while measuring.

**HIPS** / Put your feet together. Locate the correct area of your hips and measure the widest point around your buttocks. Hold the start of the tape measure on one hip, wrap it around your buttocks and around your other hip and then back to where you started.

**INSEAM** / Grab your favorite pair of pants. Measure the inseam starting at the crotch seam to the bottom of the pant leg.

CHEST

WAIST

HIPS

INSEAM

**SLIM**  
Fits close to the body and form fitting.

**STRAIGHT**  
Straight cut through the body.

**REGULAR**  
Traditional cut and fits looser around the body.

**RELAXED**  
Roomy and comfortable. Drapes loosely on the body.

WOMEN

The measurements are in **centimetres**.

The measurements are only indicative, not dimensions of the garment (except for inseam, which is garment measurement)  
We recommend to try out our clothes personally.

## HOW TO MEASURE

# SHOE

**Foot length** / Stand flat-footed with your heel against a wall. Use a ruler or tape measure from the back of your heel to the tip of your longest toe. Expect that a shoe with an inner size that exactly matches the length of your foot will not be comfortable. You should add 7-12 mm to the length of your foot (depending on how tight you want the shoe to fit) and then choose the right size based on the resulting length.

**Foot width** / Measure the flat width across the ball of your foot (the widest point) by stepping on the ruler or tape measure.

## MEN
