

SS/25

CONNECT WITH PERFORMANCE

Montane products embody fast and light. Our design philosophy removes distractions while enhancing performance through technologies such as Petrichor™ and active insulation, which enable you to move efficiently through the outdoor environment to become immersed in your passions and nature itself.

For SS25 we will be showcasing eight key focus products, from the Tenacity Nano's lightweight softshell for scaling new heights, to the Cetus our latest Petrichor™ waterproof jacket, which delivers ultimate breathability and shelter.

Jetstream is our highly considered new running short system while versatile pieces like the Alhena and Volantis are perfect for embracing any journey, all summer long.

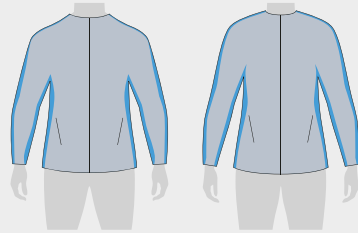

Fit guide

TORSO

Expedition

Added volume to allow for technical layering systems in cold environments

Mountain

Cut to accommodate additional layers for added functionality

Regular

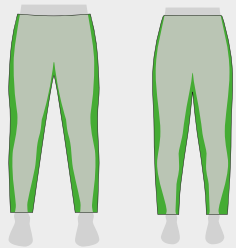

Standard fit for core outdoor activities

Trim

Close-fitting for fast-moving, active users with added articulation

LEGWEAR

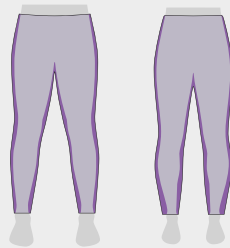

Regular

Standard fit for core outdoor activities

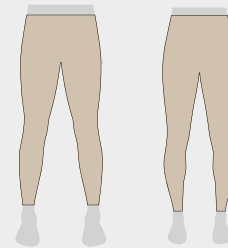

Athletic

A tailored fit, designed with added stretch for greater movement

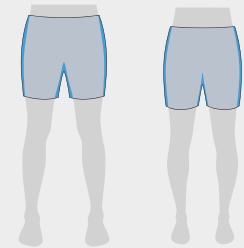

Trim

Close-fitting, for fast-moving, high-output activity

Next-to-Skin

Tight fitting and designed to be worn next to skin

Run

Tailored fit for run specific activity

Product Build

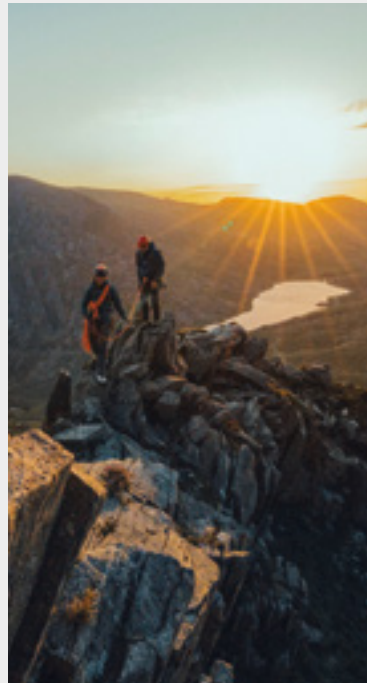

Alongside the naming system, this can be used to gain understanding of how the product has been engineered. From uncompromising durability and function to meticulous attention to critical requirements

XPD

Uncompromising focus on environmental protection, our XPD product offers pinnacle performance for the most extreme adventures.

XT

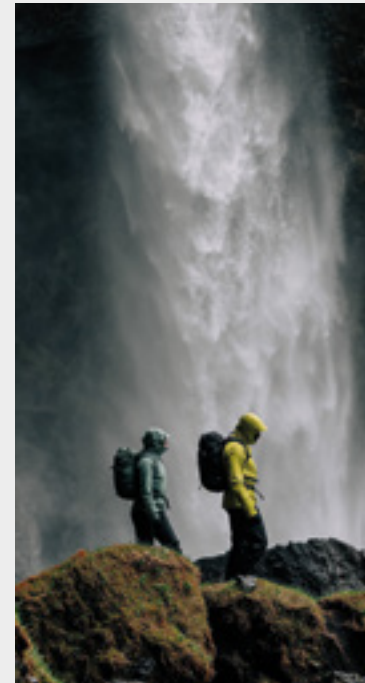

Built for more technical environments, our XT product offers an additional focus on durability and protection.

CORE

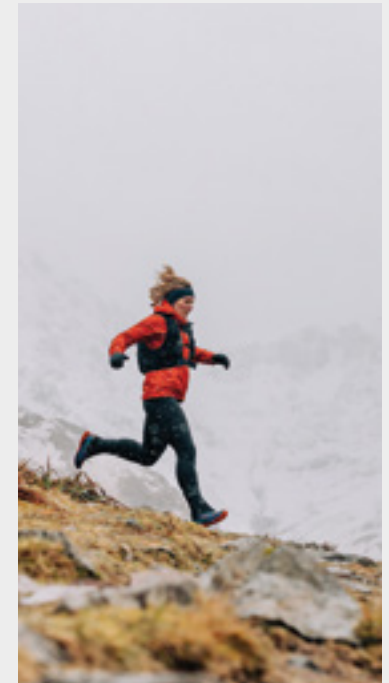

Built to perform in a wide range of conditions, our core product offers year round protection that balances weight and durability.

LITE

Engineered for efficiency, our Lite product offers a focus on weight and packability for unhindered adventures.

NANO

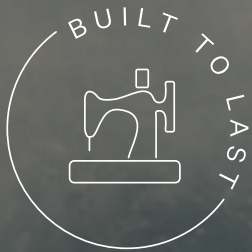

Uncompromising focus on maximising performance efficiency, our Nano product offers progressive lightweight product for when every gram counts.

FURTHER.
FOREVER.

OUR
RESPONSIBILITY

The durability of our products is of paramount importance. Here you can find information about the Montane Repair Service, aftercare, and our lifetime guarantee.

We only work with manufacturers who respect the rights and wellbeing of the people who make our products. We have taken steps that help us to verify that our high standards are consistently being met. In doing so we have peace of mind and you can too.

Our products are made for wild and extreme environments, so we're passionate about the survival and ongoing maintenance of these places.

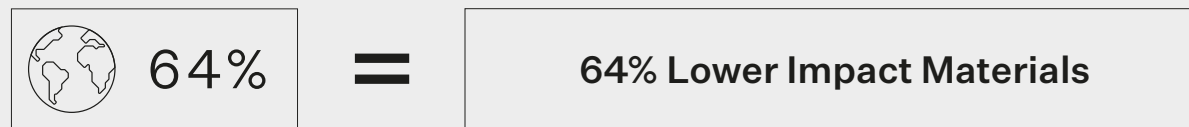

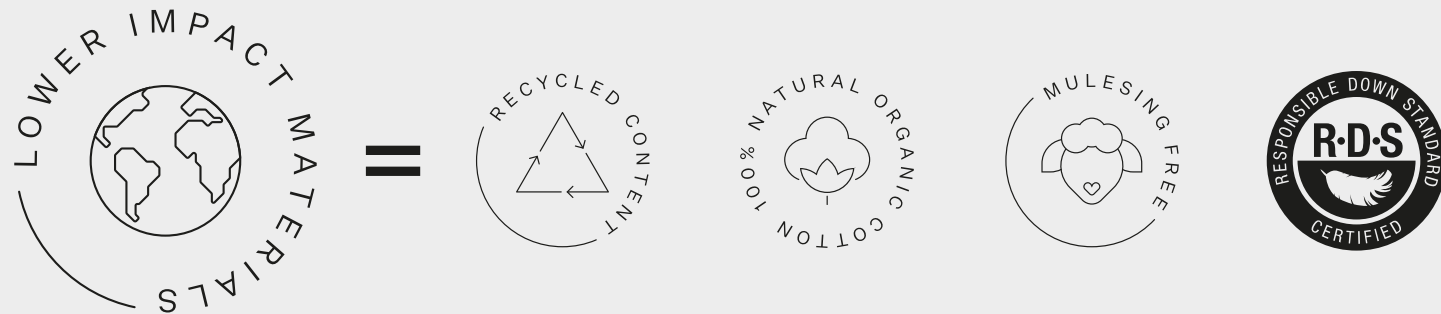

From the origin of raw materials to the resources used throughout processing, we're working hard to reduce our environmental footprint, without compromising on product performance.

Lower Impact Materials

What are 'lower impact' materials?

- Lower Impact Materials include: Recycled content, organic cotton, RDS down and non-mulesed wool.

WOMEN'S NIVEUS LITE JACKET

PRODUCT CODE: **FNILJ**

CORNFLOWER

ECLIPSE BLUE

Built to accommodate unpredictable mountain conditions, ideal when in combination with highly breathable softshells, this lightweight and highly packable Gore-Tex shell is built for fast and light ski adventures.

USP

- **RESPONSIBLE PERFORMANCE** - Using the new Gore-Tex ePE membrane for trusted high performance weather protection with a reduced environmental impact
- **MOISTURE MANAGEMENT** - Suitable for both ascents and descents, large pit-zips alongside breathable Gore-tex fabric allow for adaptable moisture management
- **EFFICIENT PERFORMANCE** - Weighing only 340g (Women's UK10), essential features are critically engineered for maximum performance and minimal weight

MATERIALS

- Main - GORE-TEX 3L ePE 100% Nylon (recycled) 20D Ripstop weave with C-Knit backer offers reliable wet weather protection (28k Hydrostatic Head) and excellent breathability (RET <13)
- Snow Skirt - PEAQ 100% Nylon (recycled) 20D plain weave lining

FEATURES

- Offset seam intersections improve construction, durability and comfort
- Laminated peak, hems, cuff tabs and snow skirt reduces seams, weight and improves durability
- Built with the movement patterns of the wearer in mind, the new trim fit provides uninhibited comfort and performance whilst allowing for correct layering for active use
- Helmet compatible hood with full adjustment for complete protection
- Articulated sleeves with grown on hook and loop adjustment
- Fully adjustable hem
- Extended pit-zip ventilation allows for adaptable moisture management

- YKK 2 way aquaguard centre front zip
- YKK aquaguard zipped hand pockets with internal drop pocket for quick access to vital carry
- Low profile snow skirt for lightweight protection against snow ingress
- Trim fit

PRODUCT CODE: **UAPXJ**

FIREFLY ORANGE

Designed for use in the most extreme environments on earth, the Apex 8000 Down Jacket has been developed in conjunction with expedition leading mountaineers and tested in high altitudes of 8000m+. The jacket is designed to be used with the Apex 8000 Down Salopettes as part of a 2 piece system, which gives it versatility for use at lower altitudes or on polar expeditions. Filled with 500g of the highest quality water-resistant goose down within a box walled construction. With the additional water resistance of PrimaLoft® insulation in key areas, there is no compromise to functionality or features on this piece of survival gear.

MATERIALS

- PERTEX® QUANTUM PRO with a highly water resistant internal coating and DWR
- PERTEX® QUANTUM PRO rip-stop reinforced areas with a highly water resistant internal coating and DWR
- 500g (M) of 90/10 water resistant fluorocarbon-free HyperDRY™ goose down at 850+ fill
- Additional 60g/m2 PrimaLoft® Gold Insulation with Cross Core™ technology across the back and shoulders
- PEAQ Down lining
- Responsible Down Standard (RDS) and Track my Down™

FEATURES

- Boxwall construction throughout for optimum thermal efficiency
- Articulated arms for high reach movement
- Fully adjustable insulated helmet compatible hood with three point adjustment and protective face aperture baffle
- Collar height designed to accommodate an oxygen mask
- Insulated internal neck baffle
- Extra durable full length two-way YKK VISLON® front zip with double insulated storm flaps and hook and loop closure
- Long cut for ample overlap with salopettes or legwear
- Two-way pit zips with YKK AquaGuard® zips
- Two microfleece hand pockets with YKK AquaGuard® zips and storm flaps
- Two Napoleon pockets with YKK AquaGuard® zips and electronics cable exit

- Napoleon pocket provides access to internal mesh drop pocket
- Two internal mesh drop pockets to fit 500ml bottles
- Zipped internal chest pocket with electronics clip
- Stretch fabric internal mitts with integral thumb loops
- Hook and loop adjustable cuff tabs
- Internal stretch cuffs with left side opening for a watch face
- External glove or mitt forearm attachment points
- Internal waist drawcord adjustability
- Adjustable hem with cinchable drawcord
- Glove and mitt friendly cords and zip pulls
- Supplied with compression stuff sac and storage bag
- Expedition Fit

UNISEX APEX 8000 DOWN SALOPETTES

PRODUCT CODE: **UAPXS**

FIREFLY ORANGE

Designed for use in the most extreme environments on earth, the Apex 8000 Down Salopettes have been developed in conjunction with expedition leading mountaineers and tested in high altitudes of 8000m+. The salopettes are designed to be used with the Apex 8000 Down Jacket as part of a 2 piece system, which gives them versatility for use at lower altitudes or on polar expeditions. Filled with 300g of the highest quality water-resistant goose down within a box walled construction there is no compromise to functionality or features on this piece of survival gear.

MATERIALS

- PERTEX® QUANTUM PRO with a highly water resistant internal coating and DWR
- PERTEX® QUANTUM PRO rip-stop reinforced areas with a highly water resistant internal coating and DWR
- 300g (M) of 90/10 water resistant fluorocarbon-free HyperDRY™ goose down at 850+ fill
- PEAQ Down lining
- Responsible Down Standard (RDS) and Track my Down™

FEATURES

- Boxwall construction throughout for optimum thermal efficiency
- Articulated knees and gusset for freedom of movement
- Extra durable three-way YKK AquaGuard® side zips with insulated internal storm flap and press snaps to prevent snow ingress whilst venting
- Extra durable zipped YKK AquaGuard® drop seat with insulated internal storm flap
- High stretch bib with zipped front pocket and electronics clip
- Fixed braces with hook and loop adjustability and silicon gripper
- Hook and loop waist adjustability with rear pre-elastication
- Harness compatible YKK AquaGuard® fly zip with double insulated storm flaps
- Pre-elasticated internal ankle cuff for comfort inside insulated footwear
- Supplied with compression stuff sac and storage bag
- Expedition Fit

WOMEN'S ALPINE 850 NANO HOODIE

PRODUCT CODE: **FABNH**

MOONSCAPE

ECLIPSE BLUE

Uncompromising focus of thermal efficiency, the Alpine 850 Nano offers exceptional warmth-to-weight ratio where every gram counts

USP

- PINNACLE PROTECTION - Built to excel in the coldest environments, the 850 fill power goose ExpeDRY™ down pushes what is possible in thermal performance
- EFFICIENT PERFORMANCE - Lightweight materials and essential features are critically engineered for maximum performance and minimal weight (F=220g M=240g)
- RESPONSIBLE MATERIALS - Alongside RDS certified Down, the materials used are 100% recycled for a reduced environmental impact

MATERIALS

- PERTEX QUANTUM 100% Nylon (recycled) 10D ripstop with PFC Free (CO) DWR coating for lightweight, windproof protection
- ALLIED FEATHER RDS certified ExpeDRY™ 90/10 Goose Down 850FP highly effective thermal protection, that dries faster and stays dry in high humidity and extreme conditions
- PRIMALOFT GOLD 100% Polyester (recycled) insulation for high moisture areas

FEATURES

- Our new insulated block has improved fit ergonomics and is engineered with optimum arm lift for mountain activities and technical movements in mind
- Specifically placed synthetic insulated panels reduce bulk and manage moisture
- Reduced vertical seams optimises ergonomic patterning for a precision fit and reduces construction for a lower weight
- Micro bound hood offers critical protection
- Elasticated cuffs seal in warmth

- Micro elasticated hem for light protection from cold weather ingress
- Lightweight YKK zipped centre front
- Lightweight YKK zipped hand pockets
- Trim fit

MOONSCAPE

Combining our Raptor Flex double weave softshell fabric with Octa fleece lining offers a durable, protective, highly breathable and very efficient system that manages moisture; keeping your warm, dry and protected

USP

- DURABLE PROTECTION - Our Raptor Flex double weave softshell is extremely durable, protecting against rugged terrain and biting winter winds
- EFFICIENT PERFORMANCE - Highly efficient Octa fleece is lightweight, quick drying, highly breathable and extremely warm
- BUILT TO MOVE - Fabrics work together with high levels of stretch to ensure uninhibited movement during dynamic mountain activities

MATERIALS

- RAPTOR FLEX 88% Nylon (recycled) 12% elastane plain weave with PFC free DWR coating offers windproof, water-resistant and highly breathable performance
- OCTA 100% Polyester (recycled) innovative fibre structure excels in efficient thermal and moisture management performance

FEATURES

- Fully adjustable hood with reinforced peak, adjustable hem and elasticated cuffs protect against cold weather and lock in warmth providing critical protection
- Mapped lining construction maximises performance and allows for easy layering
- Made for an efficient layering system, this jacket is designed to fit over the top of a winter base layer or lightweight fleece
- Fully adjustable hood with reinforced peak offers excellent protection without inhibiting vision
- Elasticated cuffs protect against cold weather ingress
- Fully adjustable hem allows for dialled in protection and ventilation

- Full-length YKK front zip with internal storm flap for increased protection
- Two YKK zipped hand pockets, covered with welts for added protection

PRODUCT CODE: **MNILJ**

CITRUS SPRING

ECLIPSE BLUE

Built to accommodate unpredictable mountain conditions, ideal when in combination with highly breathable softshells, this lightweight and highly packable Gore-Tex shell is built for fast and light ski adventures.

USP

- **RESPONSIBLE PERFORMANCE** - Using the new Gore-Tex ePE membrane for trusted high performance weather protection with a reduced environmental impact
- **MOISTURE MANAGEMENT** - Suitable for both ascents and descents, large pit-zips alongside breathable Gore-tex fabric allow for adaptable moisture management
- **EFFICIENT PERFORMANCE** - Weighing only 360g (Men's Medium), essential features are critically engineered for maximum performance and minimal weight

MATERIALS

- Main - GORE-TEX 3L ePE 100% Nylon (recycled) 20D Ripstop weave with C-Knit backer offers reliable wet weather protection (28k Hydrostatic Head) and excellent breathability (RET <13)
- Snow Skirt - PEAQ 100% Nylon (recycled) 20D plain weave lining

FEATURES

- Offset seam intersections improve construction, durability and comfort
- Laminated peak, hems, cuff tabs and snow skirt reduces seams, weight and improves durability
- Built with the movement patterns of the wearer in mind, the new trim fit provides uninhibited comfort and performance whilst allowing for correct layering for active use
- Helmet compatible hood with full adjustment for complete protection
- Articulated sleeves with grown on hook and loop adjustment
- Fully adjustable hem
- Extended pit-zip ventilation allows for adaptable moisture management

- YKK 2 way aquaguard centre front zip
- YKK aquaguard zipped hand pockets with internal drop pocket for quick access to vital carry
- Low profile snow skirt for lightweight protection against snow ingress
- Trim fit

UNISEX APEX 8000 DOWN JACKET

PRODUCT CODE: UAPXJ

FIREFLY ORANGE

Designed for use in the most extreme environments on earth, the Apex 8000 Down Jacket has been developed in conjunction with expedition leading mountaineers and tested in high altitudes of 8000m+. The jacket is designed to be used with the Apex 8000 Down Salopettes as part of a 2 piece system, which gives it versatility for use at lower altitudes or on polar expeditions. Filled with 500g of the highest quality water-resistant goose down within a box walled construction. With the additional water resistance of PrimaLoft® insulation in key areas, there is no compromise to functionality or features on this piece of survival gear.

MATERIALS

- PERTEX® QUANTUM PRO with a highly water resistant internal coating and DWR
- PERTEX® QUANTUM PRO rip-stop reinforced areas with a highly water resistant internal coating and DWR
- 500g (M) of 90/10 water resistant fluorocarbon-free HyperDRY™ goose down at 850+ fill
- Additional 60g/m2 PrimaLoft® Gold Insulation with Cross Core™ technology across the back and shoulders
- PEAQ Down lining
- Responsible Down Standard (RDS) and Track my Down™

FEATURES

- Boxwall construction throughout for optimum thermal efficiency
- Articulated arms for high reach movement
- Fully adjustable insulated helmet compatible hood with three point adjustment and protective face aperture baffle
- Collar height designed to accommodate an oxygen mask
- Insulated internal neck baffle
- Extra durable full length two-way YKK VISLON® front zip with double insulated storm flaps and hook and loop closure
- Long cut for ample overlap with salopettes or legwear
- Two-way pit zips with YKK AquaGuard® zips
- Two microfleece hand pockets with YKK AquaGuard® zips and storm flaps
- Two Napoleon pockets with YKK AquaGuard® zips and electronics cable exit

- Napoleon pocket provides access to internal mesh drop pocket
- Two internal mesh drop pockets to fit 500ml bottles
- Zipped internal chest pocket with electronics clip
- Stretch fabric internal mitts with integral thumb loops
- Hook and loop adjustable cuff tabs
- Internal stretch cuffs with left side opening for a watch face
- External glove or mitt forearm attachment points
- Internal waist drawcord adjustability
- Adjustable hem with cinchable drawcord
- Glove and mitt friendly cords and zip pulls
- Supplied with compression stuff sac and storage bag
- Expedition Fit

MEN'S ALPINE 850 HOODIE

PRODUCT CODE: **MAL8H**

BLACK

CITRUS SPRING

The perfect alpine or high-altitude basecamp insulation. Its exceptional warmth to weight make every gram count in this lightweight high performance down jacket. Built for mountain environments, the Alpine 850 hoodie uses high performance 850 fill power Hyperdry™ goose down which is encased by ultra light yet durable 10D Pertex Quantum Eco using box wall construction to ensure maximum thermal performance.

MATERIALS

- Outer - Pertex Quantum Eco 10D 100% Recycled Nylon with PFC-DWR offers sustainable lightweight protection
- Insulation - 170g (medium) of Hyperdry® 850 Fill power RDS approved Goose down offers exceptional lightweight thermal performance
- Lining - Pertex Quantum Eco 10D 100% Recycled Nylon for ultralight weight comfort with a reduced impact on the environment

FEATURES

- Box wall baffle construction reduces heat loss and improves down loft to maximise performance
- Fully adjustable hood for fine tuned fit adjustment to protect against cold winds
- Elasticated cuffs to lock in warmth and protect against cold wind
- YKK Natulon reverse coil zipped hand pockets for secure storage using reduce environmental impact materials
- Fully adjustable hem to minimise heat loss and keep out wind
- YKK Vislon 2 way centre front zip adds harness compatible protection
- Regular Fit

MEN'S ALPINE 850 LITE HOODIE

PRODUCT CODE: **MALPH**

FLAME ORANGE

BLACK

The Alpine 850 Lite Hoodie has been built using our lightest specification of PERTEX® QUANTUM ECO materials and highest quality down to produce a minimalist emergency warmth layer which delivers exceptional warmth for its weight. The optimised baffle width improves thermal efficiency by allowing the 850 fill power goose down to loft effectively. The Alpine 850 has been developed as an extremely light and packable insulation layer without compromising on warmth.

MATERIALS

- Pertex Quantum Eco 10D 100% Nylon (Recycled) outer and lining with PFC-free DWR
- Filled with 140g (size Medium) of 90/10 water resistant fluorocarbon-free HyperDRY™ down at 850+ fill power
- Responsible Down Standard (RDS) and Track my Down™ certified

FEATURES

- Midi baffle construction
- Pre-elasticated under-helmet hood

PRODUCT CODE: **MABNH**

ECLIPSE BLUE

STONE BLUE CITRUS SPRING

Uncompromising focus of thermal efficiency, the Alpine 850 Nano offers exceptional warmth-to-weight ratio where every gram counts

USP

- **PINNACLE PROTECTION** - Built to excel in the coldest environments, the 850 fill power ExpeDRY™ down pushes what is possible in thermal performance
- **EFFICIENT PERFORMANCE** - Lightweight materials and essential features are critically engineered for maximum performance and minimal weight
- **RESPONSIBLE MATERIALS** - Alongside RDS certified Down, the materials used are 100% recycled for a reduced environmental impact

MATERIALS

- PERTEX QUANTUM 100% Nylon (recycled) 10D ripstop with PFC Free (CO) DWR coating for lightweight, windproof protection
- 60g (medium) of ALLIED FEATHER RDS certified ExpeDRY™ 90/10 Goose Down 850FP highly effective thermal protection, that dries faster and stays dry in high humidity and extreme conditions
- PRIMALOFT GOLD 100% Polyester (recycled) insulation for high moisture areas

FEATURES

- Our new insulated block has improved fit ergonomics and is engineered with optimum arm lift for mountain activities and technical movements in mind
- Specifically placed synthetically insulated panels reduce bulk and manage moisture
- Reduced vertical seams optimises ergonomic patterning for a precision fit and reduces construction for a lower weight
- Micro bound hood offers critical protection
- Elasticated cuffs seal in warmth

- Micro elasticated hem for light protection from cold weather ingress
- Lightweight YKK zipped centre front
- Lightweight YKK zipped hand pockets
- Trim fit

VALEN

Only what matters

The minimalist Alpine pack that has a place for everything you need but nothing you don't, and yarn that's 15-times stronger than steel.

VALEN 40+5L

PRODUCT CODE: **PVA40**

NEPTUNE BLUE **NEW**

PEBBLE BLUE **NEW**

Lightweight Alpine pack built to adapt to a multitude of alpine scenarios. Durable lightweight materials are balanced with essential, adaptable features to allow the wearer to use this simple pack for a wide range of activities.

MATERIALS

- RAPTOR Grid 100D 88% Nylon (recycled) 12% Polyethylene, UHMWPE (Ultra High Molecular Weight Polyethylene) ripstop yarn is 15 times stronger than the same weight of steel. Allows for an incredibly light weight fabric with the security of exceptional rip-stop strength.

FEATURES

- Roll top closure for expandable secure loading and storage with top compression strap
- Internal expandable bivi for 5L additional volume
- External zipped pocket for easy access to essential items
- Equipment ready with ice axe, rope and gear attachment points
- Glove compatible buckles and components
- Side compression straps
- Continuous webbing constructed to provide 360-degree compression and load carry stability
- Snow shedding back panel, harness and padded hip belt
- Moulded body formed back panel with pre-shaped aluminium stave for a close, secure carry and excellent stability during dynamic activities
- Additional zipped pocket can be attached to the hip belt or internal daisy chain

TRAILBLAZER XT 35

PRODUCT CODE: **PTX35**

ACER RED

BLACK

Engineered to endure more rugged terrain, the Trailblazer XT builds on our innovative Trailblazer packs to excel in Alpine environments in a more sustainable package.

USP

- **SUSTAINABLE MATERIALS** - Durable recycled Nylon fabrics throughout the packs ensure reduced environmental impact without compromise
- **MODULAR ADAPTABLE DESIGN** - Montane T-Hook works alongside laser cut holes either side of front panel to offer adaptable easy to reach storage solutions
- **IMPROVED VERSATILITY** - Improved pockets configuration throughout offers more versatile easy access storage, allowing more variety of carry to be stowed securely

MATERIALS

- Main - Raptor Cross 210D 100% Nylon (recycled) Triple Ripstop with PFC-Free DWR Coating
- Lining - Halo 200D 100% Polyester with PFC-Free DWR Coating
- Mesh Pockets - Power Mesh 80% Nylon (recycled) 20% Elastane mesh
- Back Pad - Contact Open Mesh 100% Polyester mesh
- Shoulder Straps & Hip fins - Contact Air Mesh Plus 100% Polyester (recycled)

FEATURES

- Customisable, body-hugging trail specific COVALENT harness - pulls pack close to body using vertical and horizontal compression
- Two off-centre Montane Click and Go chest harness straps for security whilst moving at fast pace
- Easily adjustable ZephyrAD back system
- 3D moulded foam back panel - comfortable, stable fit with greater breathability and structure
- Accessible, wrap-around wand pockets with locking security zips - access bottles/snacks on the go, lock a larger bottle poking out of zip

- Zipped front pocket
- Zipped main compartment access
- Webbing compression straps - can compress from anywhere along hidden daisy chain
- Bivi opening with quick release cord lock adjustment
- Hidden daisy chain - compatible with custom T-hook system
- Ice axe/trekking pole webbing loop and cord lock
- Hydration bladder compatible
- Shoulder strap pockets with mesh gusset - can fit soft flasks or hard bottles

MONTANE ULTRAFLASK 500ML

PRODUCT CODE: PUF50

MONTANE LOGO

The Montane UltraFlask™ 500ml by Hydrapak® is a compactable flask for quick, easy hydration when on the move. The flask compresses for easy storage and prevents water from sloshing. The new wider top opening allows for quick and easy filling / cleaning whilst the high performance soft silicone bite valve provides a high flow rate.

MATERIALS

- TPU

FEATURES

- Soft, flexible TPU flask body
- 3D base
- 500ml liquid capacity
- Wide screw top opening
- High flow rate soft silicone bite valve
- Dishwasher safe (top rack)
- BPA free / PVC free / meets or exceeds FDA and EU regulations
